Our Attendance is Dropping!

We currently have **95.89%** attendance for this school year. November took a huge hit on our overall average with a monthly average of **94.93%**. Please remember that vacations during the school year impact not only your child's continuity in their learning but it has an overall effect on the classroom and the teacher's instructional planning. Please arrange family time on winter, spring and summer breaks. Thank you to all of the parents who are being very conscientious about bringing students to school after doctor's appointments or assuring early dismissals do not happen before 2pm!

Our school rating and each student's long term success is hindered on having great attendance! We need to get our attendance back above 96%!
